PROJECTS

[REST COUNTRIES](#)

- The Rest-Countries App is a website that displayed a list of countries from an API. On the site, you were able to see more details about the country, search for a country, and also filter by region.
- The app was built with JavaScript, Tailwindcss, Webpack, and RESTful API.

[PAYMENT VOUCHER](#)

- A payment voucher generator app that allowed you to enter details of items purchased, generate an invoice, and print the invoice.
- This app was built with React, Redux, and Tailwindcss.

[LEADERBOARD APP](#)

- The leaderboard website displayed scores submitted by different players. It also allowed you to submit your score.
- This app was built with JavaScript, Webpack, Bootstrap5, and RESTful API.

RELEVANT EXPERIENCE
